Newly Rated ETFs Buy Shares Abroad

NEW YORK ([TheStreet](#)) -- All 10 of the highest-rated equity exchange traded funds hold international stocks.

PowerShares Emerging Markets Infrastructure Portfolio ([PXR Quote](#)) tops the list of ETFs that have been rated based on Nov. 30 data. Rated A-plus, the ETF rides the leading edge of progress as emerging economies spend more of their gross domestic product on infrastructure construction and development.

....

The third-best rated equity ETF this month, also at A-plus, **PowerShares Global Progressive Transportation Portfolio**([PTRP Quote](#)) climbed 65% in the year ending Nov. 30. This is one of nine "green ETFs" offered by PowerShares and tracks the Wilder NASDAQ OMX Global Energy Efficient Transportation Index, which includes technology companies transitioning society to cleaner, more efficient transport through energy efficiency, renewable fuels, conservation, power storage and energy delivery. Other [PowerShares Green ETF](#) portfolios target clean energy, water, technology, nuclear and wind to capture the convergence of political will, economic viability and green technology being embraced by governments, companies and shoppers all over the world.
